

## OFFICERS BATTLE WITH CHINAMEN

Oriental Object to Having Their Smuggled Opium Confiscated.

New York, June 7.—In seizing more than \$1,000 worth of contraband opium to-day, three customs inspectors and three detectives battled with fourteen members of the Chinese crew of the steamer Rosalie at a Brooklyn wharf, and finally arrested three Orientals.

On secret information, the customs men searched the Rosalie, which was getting ready to sail to-day on its regular trip to Shanghai, and found ten cans of opium hidden in the bunks of members of the crew. The captain refused to tell what Chinamen occupied those bunks, and when the officer started to take the drug the fourteen members of the crew objected.

The customs men were driven to the main deck, and from there to the dock by the Chinamen, who, they say, were armed with long knives. The customs men called in the police and a concerted attack was made on the crew below decks, with the result that half a dozen of the Celestials were severely beaten and three arrested.

The opium was captured and the prisoners held by a United States commissioner for examination on a charge of smuggling opium.

Holds Final Session

Society of St. Vincent de Paul Meeting in Boston.

Boston, June 7.—The final session of the annual conference of the Society of St. Vincent de Paul in this city was held this afternoon.

The delegates listened to an address by Richard G. Gannon, president of the particular council of Chicago, on the "spiritual side of the society," after which the meeting was thrown open for general discussion. Mr. Gannon considered the "Spiritual Advantages of Membership in the Society."

"Members who have a vocation for real charitable endeavor find ever-recurring opportunities of widening the scope of the Vincentian effort," said the speaker. "If, therefore, there are social problems the solution of which require the sympathy and spirit of Vincentians. There is an urgent need of an increase in the number of members—members who possess not alone the sturdy virtues of the pioneers, but who are also more generally blessed with the advantages of education. Men of this type have an almost unlimited field to live for God and neighbors."

Former Premier Dead

Senator Maurice Rouvier, of France, Passes Away.

Paris, June 7.—Senator Maurice Rouvier, twice premier of France, died here to-day.

M. Rouvier was born at Aix in 1842. He became known early as an enemy of the empire. He was elected a member of the National Assembly in 1871, and in 1881 he was appointed minister of commerce in the Gambetta Cabinet. In 1897 he became premier, taking also the portfolio of finance.

His ministry lasted only six months, but it was notable for the removal of General Boulanger from the office of minister of war. Boulanger was then at the height of his popularity, and M. Rouvier's action was regarded as a courageous one.

M. Rouvier held the finance portfolio in 1893, 1899, 1902 and from 1902 until 1905, when he was again made prime minister. He resigned from the office in March, 1906, upon being defeated in the Chamber of Deputies on a minor debate over church disorders.

Two Killed, Two Injured

Result of Cave-In at Mine Near Dover, N. J.

Dover, N. J., June 7.—Two men were killed and two others injured by a cave-in in the Leonard mine of the Empire Steel and Iron Company at Mount Hope. The cave-in occurred about 200 feet from where the miners were at work on a level, and the concussion blew the men into the shaft.

The dead are Edward Jenkins, Sr., of Rockaway, N. J., and John R. Hart, of Hibernia. Harry Brown and James Roberts, both of Mount Hope, were injured, neither mortally.

Berger Says Socialists Are Unknown in Mexico

Representative From Milwaukee Re-States Statements Concerning Lower California Republic.

Washington, D. C., June 7.—Representative Victor Berger, of Milwaukee, the Socialist member of the House, is indignant that the instructors of Lower California, should be spoken of as "Socialists," and that Madero, the successful Mexican revolutionist, should have asked the permission of this government to put those "Socialists" out of business.

Mr. Berger says there are no Socialists in Mexico, and by the very nature of things cannot be inasmuch as capitalism must precede socialism, and as Mexico is very backward, compared with the United States and some other countries in capitalist development.

"I see by the morning papers," said Mr. Berger to-day, "that Madero is

going to put down the Socialist insurrection in Lower California by armed force, and that he even asked the American government to permit him to send troops to Lower California to take up arms on the peninsula against these Socialist insurgents."

Captain Campbell, the last man to leave his ship and live, was the first to take measures to save his charges. Women and children were huddled in the main dining saloon, while the lifeboats were being swung out. Just after the first had received its load of passengers, the animals set upon a frightful din and stamped the ship into the water they plunged, one end of a lifeboat being struck, and the craft being wrenched from its fastenings, and it dropped. Brute and human bodies blended in wild confusion. Men, women and children were upon the lifeboat. The Scotchman, named Perivanchi, performed almost incredible feats in helping passengers escape, and in heating off the maddened animals. He and a cigar manufacturer named Gregoria paid for their heroism with their lives.

Two passengers rode to shore upon the backs of screaming bullocks. Several used steamer trunks, which they had hastily carried aboard, emptied, and locked up again.

STEPHENSON UNDER FIRE

United States Senate Will Be Asked to Investigate Election.

Madison, Wis., June 7.—The Senate to-day by a vote of 16 to 3, adopted the Blair substitute to the joint resolution, calling on the United States Senate to investigate the election of the United States Senator Isaac Stephenson, which, according to the resolution, a special investigating committee, was brought about by irregular means.

Does Not Want Mormon Silver Service Accepted.

Pittsburg, Pa., June 7.—Resolutions protesting against the acceptance of the silver service for the battleship Utah, on which is engraved a picture of the Mormon temple and a likeness of Brigham Young, were adopted by the Reformed Presbyterian Synod in session here to-day. The synod holds that the service would suggest to representatives of foreign nations that the people of the United States regard Mormonism with respect instead of abhorrence, and Brigham Young as a benefactor of the nation.

After ordering that copies of the resolution be sent to President Taft and Secretary of Navy Meyer, it concludes: "We earnestly pray you that the nation may be spared the pain and shame of this disgrace."

## 78 Years Old, Health Perfect

Prominent real estate and insurance man of Barborton, Ohio, owes his youthfulness and vigor to the world's greatest tonic stimulant.

MR. JOHN McNAMARA.

"For quite some time I have been using Duffy's Pure Malt Whiskey according to directions, and I am now feeling better than at any time for the last several years. I have not paid out a dollar to doctors since I commenced its use, but before using it was compelled to get various kinds of medicine off and on. I am now over 78 years of age, and, thanks to Duffy's Pure Malt Whiskey, I am enjoying the best health I have had in 25 years."—John McNamara, Barborton, Ohio.

Duffy's Pure Malt Whiskey

as a renewer of youth and tonic stimulant is one of the greatest strength givers known to science. Its palatability and freedom from injurious substances render it so that it can be retained by the most sensitive stomach. It is invaluable for overworked men, delicate women and sickly children. It strengthens and sustains the system; is a promoter of health and longevity; makes the old feel young and keeps the young strong and vigorous. It is recognized as a family medicine everywhere.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt Whiskey be sure you get the genuine. It is an absolutely pure medicinal malt whiskey, and is sold in 52.5% ALC. BY VOL. ONLY, in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price \$1.00 a large bottle. Illustrated medical booklet and doctors' advice free on application. The Duffy Malt Whiskey Co., Rochester, N.Y.

## VIRGINIA LABOR LEADERS

M. R. PACE, Secretary. JAMES EPPERSON, President.

JOHN HIRSCHBERG.

BRINGING BACK STORM DAMAGES  
FILIBUSTER FRUIT AND CROPS

Hornet Will Be Returned to New York for Trial in Libel Suit.

Washington, June 7.—The little gunboat Hornet, detained in Honduran waters by a United States war vessel and charged with being a filibuster in the recent revolution against Honduras, will be returned to New Orleans in a few days for trial in the libel suit instituted by the Department of Justice, alleging violation of the neutrality statutes of the United States. This involves the forfeiture of the vessel.

The American gunboat Wheeling, now at Puerto Cortez, Honduras, with the Hornet, has been instructed to arrange for the return of the vessel to American jurisdiction.

The Hornet sailed from New Orleans unarmored on December 22, but later appeared in Honduran waters as a fighting ship. Her registry was changed from American to Honduran while at Ratan Island by officials, it is claimed, appointed by Manuel Bonilla, the leader of the revolution. Several weeks ago the State Department asked the government of Honduras if it desired to legalize this registry and accept the Hornet as a government vessel. The Honduran government, it is said here, does not appear to be interested in this direction, and consequently the little ship will be brought immediately to American jurisdiction for trial.

Loss in Staunton Section Estimated at Thousands of Dollars.

Staunton, Va., June 7.—Reports continue to come in from the county of damage from Sunday's hail, rain and wind storm. The damage in city and county, most of it in the county, is growing crops and to fruit trees. It is estimated at several hundred thousand dollars, some estimates going as high as \$1,000,000. Many wheat fields were beaten into the ground. There were a great many houses uprooted. On one farm every house of every description lost its roof. Chickens and young turkeys were killed by the hundreds. The haystacks cut through the skin of cows in pasture. People who happened to be caught out in it were badly pelted. While the chief immediate loss is to growing crops, the most lasting damage was probably to apple orchards. One orchardist estimates the damage to his trees at \$5,000. Hailstones cut gashes in the bark of young apple trees, and it is difficult to form any idea of what this will amount to, as it has never been experienced here before. No such storm ever having occurred here so far as known.

The territory covered was fully ten miles square.

Salisbury Experiences Storm.

[Special to The Times-Dispatch.] Salisbury, N. C., June 7.—The worst wind and electric storm for years past over this section of North Carolina this afternoon, doing several thousand dollars' worth of damage. The roofs of the Salisbury Dry Goods Company, Belk-Harry Company and the Vance Cotton Mills were partly blown off, and the contents damaged by the heavy rain that broke a prolonged drought.

The smokestack and a part of the brick wall of the Salisbury Gas Plant were blown out, and Bill Burgess, engineer at the plant, was injured in the head by falling bricks. As a result of the storm, three blocks of cable and 200 telephones are out of commission in Salisbury, and it will take one month to repair them.

A dwelling near Salisbury is reported to have been blown out into a field.

Damage in Amherst Section.

[Special to The Times-Dispatch.] Amherst, Va., June 7.—A terrific wind and hail storm passed over the vicinity of New Glasgow, Va., Sunday afternoon, doing great damage to all growing crops. Tobacco plants were beaten into the ground, and many were broken down. The foliage and bark was stripped from forest trees, and many shade trees and young fruit trees were broken down. A house below New Glasgow, belonging to T. C. Payne and occupied by Robert Jordan, was blown from its foundation, but the occupants were uninjured. It is said by the oldest citizens of that section that the storm of Sunday was the worst they have ever seen.

TRAPPED ON A TRESTLE

Two Men Obligated to Jump Sustain Fatal Injuries.

Westerly, R. I., June 7.—Charles Green, of Mystic, Conn., is dead and William Price, of Pendleton Hill, Conn., dying as the result of injuries received last night when the two, trapped on a railroad trestle, fifty feet above ground, were obliged to jump for their lives. Green became entangled in some telephone wires, lost his equilibrium and landed on his head. Price made a clear jump, but sustained internal injuries.

RECIPROCITY AND THE SOUTH

President Taft Will Discuss That Subject to Cottonseed Crushers.

Washington, June 7.—In his speech to this National Cottonseed Crushers' Association to-morrow night, President Taft intends to outline the effect that reciprocity with Cuba would have upon the cotton industry and upon the South generally. He will make known the results of the request of several Southern Senators, and it may prove an amplification of the speech he made at Chicago last Saturday. The President will leave for New York early to-morrow.

Benley Withdraws From Race.

[Special to The Times-Dispatch.] South Boston, Va., June 7.—R. Hunter Benley, one of the best-known citizens of Halifax county, and a prominent candidate for the House of Delegates, has announced his withdrawal from the contest. His withdrawal leaves three candidates in the field—Joseph Stebbins, Jr., J. A. Glenn and Dr. S. T. A. Kent.

Chas. H. Fletcher.

In Use For Over 30 Years.

THE CASTORIA COMPANY, 27 N. MURRAY STREET, NEW YORK CITY.

are Socialists any more than Madero is a Socialist. Socialism presupposes a population of high grade in civilization, it presupposes a certain grade of culture and civilization unknown to Mexico, including the Lower California peninsula. In other words, socialism is the child of civilization and it cannot exist without civilization preceding it. We have the Socialist movement in England, France, Germany, Holland, Belgium, Austria and the Scandinavian countries, and in the United States, but we have none in China, Turkey, Mexico, Portugal and very little, if any, movement in countries like Italy and Japan, that are behind in capitalist development. It is the fact that one is a marauder would make one a Socialist, then Diaz and Madero and Raul would be the champion Socialists."

PROVED AN IMPOSTER

Would-Be Suicide Not Son of Ex-Congressman Boutell.

New York, June 7.—The young man who described himself as a son of former Congressman Boutell, of Chicago, after he had been prevented from committing suicide in the building of the Young Men's Christian Association, was to-day pronounced by former Congressman J. Frank Aldrich, of Chicago, to be an imposter.

After Magistrate Fraschi had held a preliminary hearing to-morrow he asked Mr. Aldrich to investigate. Mr. Aldrich, through a close friend of the Boutell family, communicated with Roger Sherman Boutell, a son of the former Congressman, in Washington.

Mr. Boutell said that the would-be suicide was no relation; that he was doubtless the same man who tried to kill himself in New Orleans a few weeks ago, and at that time said he was a son of a former Congressman and present minister to Switzerland. Mr. Boutell said he did not know the man under arrest.

In court to-day, however, the prisoner insisted that he was a son of the Chicago ex-Congressman.

FOUR PLOTTERS ARE BEING HELD

They Are Said to Be Members of Socialistic Force in Lower California.

El Paso, Tex., June 7.—Four men, alleged to be members of the socialistic revolutionary forces in Lower California, and recognizing Ricardo Flores Magon as their head, were arrested by United States secret service officers in El Paso to-day.

With them were captured rifles, ammunition and hospital equipment, which had been secretly stored in a vacant house.

The arrests followed announcement of Mexican officers in Juarez that plotters were at work to create a widespread movement against Madero out of the dissatisfaction in Lower California. Telegrams have been sent to Madero at Mexico City early in the day, advising him to investigate closely the loyalty of certain Federal troops who were about to be sent to Lower California.

In consequence, 1,300 Federals were ordered to stay at Chihuahua, were ordered not to go to Lower California. A confidential military adviser of Madero declared he had evidence that certain Federal army officers were preparing to join the Lower California party and extend it to other parts of Mexico.

While investigating alleged plots in the custom house in Juarez to-day, Abram Gonzales, Provisional Governor of Chihuahua, narrowly escaped being shot. A bullet fired by some unidentified person, imbedded itself in a wall near Gonzales.

MOTHER'S LOVE VICTORIOUS.

Doubting Its Death, She Finds Child After Six Years' Search.

Wilkesbarre, Pa., June 7.—A search of six years, sustained by mother love, for a child that she had been offered to sell, was ended yesterday morning in Mrs. James P. Horn recovering possession of her twelve-year-old daughter, Angelus.

Mrs. Horn was obliged in 1902 to place the child in a home for children in Scranton, where she was offered to a hospital for an operation. Three years later, her husband having died, she went to claim the child, but was told that the little girl was dead. She refused to believe it, and when the officials at the home could not show her a death certificate, she felt in her daughter's being alive was strengthened.

She visited home after home of persons who had adopted children and finally found her little girl with Daniel J. Boyle and his wife, at Fern Glen, a decree here to-day ordering the child returned to its mother.

GIRL OF 12 TRIES SUICIDE.

Takes Poison Because Mother Scolded Her.

New Brunswick, N. J., June 7.—In St. Peter's Hospital, this city, is Mabel Brody, a twelve-year-old girl, of 111 Nelson Street, suffering agonies, the result of an attempt to end her life, by swallowing a bichloride of mercury tablet because her widowed mother scolded her.

Mrs. Brody sat by the side of the child yesterday and told the story of her daughter's attempt. "Yesterday I did not know where she was from the time she left home in the morning. By 9 o'clock I was so distracted with worry that when she finally came home and told me she had been at a moving picture show, and had sold her umbrella for 10 cents to get the admission, I scolded her."

Mabel said that for months she had kept the tablets, on each of which was stamped "poison," with the ultimate intention of some time using them.

Ordered to Scene of Trouble.

Washington, June 7.—In view of the rumored threatened revolutionary disturbances in Nicaragua, the gunboat Marietta has been ordered from Guantanamo, Cuba, to Bluefields, Nicaragua. The warship will undertake a tour of observation to protect American interests, if necessary. The gunboat is already cruising in Central American waters in an effort to find any possible traces of a revolution in that quarter.

DONLIN JOINS GIANTS.

Pittsburg, Pa., June 7.—Mike Donlin, former outfielder of the New York Club, who was recently reinstated by the National Commission, joined the team here to-day. A conference with Manager McGraw is expected some time to-day. Donlin said he did not know what his prospects are in baseball, but that he had heard rumors that he was to be traded to the St. Louis or Cincinnati team. According to Donlin, he would rather be sent to the minor league than join the Cincinnati team.

Declares to Cottonseed Association They Are Best Voters in New York.

New York, June 7.—With the declaration that the politics of the country should be controlled by the business men, Mayor Gaynor to-day formally welcomed the delegates to the fifteen annual convention of the National Cottonseed Crushers. More than 300 delegates were in attendance, and to them the Mayor said that "we have 100,000 votes of Southern people who now live here in this city, and let me tell you they are the best voters we have. They have brought with them the pure political sentiments of the South, and they vote right every
